Ansh Vajpai

Full Stack Web Developer (MERN)

Gwalior, Madhya Pradesh, India

+91-6262477593 — vajpaiansh008@gmail.com

LinkedIn — GitHub — Portfolio — LeetCode

Objective

Motivated Full Stack Web Developer (MERN) with a strong foundation in React.js, Node.js, Express.js, MongoDB, JavaScript, and TypeScript. Passionate about building responsive web applications and continuously improving problem-solving skills through Data Structures and Algorithms in Java.

Education

Maharana Pratap College of Technology (MPCT) **2022 – 2025**

Bachelor of Computer Applications (BCA) *Gwalior, Madhya Pradesh*

- **CGPA:** 8.01

Technical Skills

Programming Languages: Java, JavaScript, TypeScript

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Tools: Git, GitHub, VS Code, Postman, Vercel, Netlify, Render

Problem Solving: Data Structures and Algorithms (Java), LeetCode

Projects

MERN Stack Chat Application

- **Tech Stack:** MongoDB, Express.js, React.js, Node.js
- Developed a full-stack chat application using the MERN stack for user communication.
- Implemented user authentication and access control for application features.
- Designed a responsive user interface to provide a smooth messaging experience across devices.
- Developed REST APIs for user and conversation management.

AI-Powered Property Rental Management System

- **Tech Stack:** MongoDB, Express.js, React.js, Node.js, REST APIs
- Built a full-stack property rental management application using the MERN stack.
- Designed features for property listings, rental management, and property discovery.
- Incorporated AI-powered functionality to enhance the property rental experience.
- Developed REST APIs and a responsive frontend for seamless user interaction.

Training

Self Learning **2024 – Present**

Full Stack Web Development (MERN) *Independent Learning*

- Learning full-stack web development using MongoDB, Express.js, React.js, and Node.js.
- Building responsive interfaces using React.js and Tailwind CSS.
- Developing REST APIs using Node.js, Express.js, and MongoDB.
- Using Git and GitHub for version control and collaborative development.
- Deploying web applications using Vercel, Netlify, and Render.
- Practicing Data Structures and Algorithms in Java through LeetCode.
